📞 (405) 322-3455 | ✉ amida.fombutu@gmail.com

Objective

Passionate and results-driven Full-Stack Developer with over 2 years of experience building responsive, user-focused web and mobile applications. Skilled in JavaScript frameworks, backend technologies, and cross-platform mobile development with React Native. Seeking an opportunity to contribute technical expertise, create innovative solutions, and grow within a dynamic development team.

Technical Skills

- Front-End Development: React.js, React Native, Svelte, WebFlow, Angular, Vue.js, JavaScript, TypeScript, jQuery
- Styling & UI: Tailwind CSS, Styled Components, Bootstrap, CSS Modules
- Backend Development: Java Spring Boot, REST APIs, MySQL
- Tools & Platforms: Git, Netlify, Figma, JSON, HTML, CSS
- Other Skills: Agile methodologies, cross-functional team collaboration, CMS integration, troubleshooting complex issues

Professional Experience

Freelance Full Stack Web & Mobile Developer

July 2022 – Present

- Designed, developed, and maintained websites and mobile applications for clients using React, Svelte, WebFlow, and React Native.
- Built responsive and high-performance solutions, improving site speed and user engagement by 20%.
- Collaborated closely with designers to translate wireframes into intuitive, user-friendly interfaces.
- Integrated REST APIs and optimized backend performance to enhance overall app efficiency.

Synergy HomeCare — Caregiver & Medication Aide

Sept 2021 – July 2022

- Utilized software to manage patient data, ensuring accuracy and consistency — skills transferable to maintaining web app data integrity.

- Coordinated schedules and managed multiple tasks simultaneously, similar to handling concurrent development projects.

US Army, Oklahoma National Guard — Allied Trade Specialist

Jan 2018 – Present

- Lead and managed a team, optimizing workflows and improving operational efficiency.
- Developed leadership and project management skills directly applicable to software development environments.

Education

Codeup, Dallas, TX — Certificate of Completion

Jul 2022 – Jan 2023

- Completed 670+ hours of immersive training in Full-Stack Development including React, WebFlow, Svelte, and backend technologies.

Oklahoma City Community College — Computer Science (In Progress)

Aug 2022 – Present

- Completed 35 credit hours toward a degree in Computer Science.

Certifications

- Certified Scrum Master (Scrum Alliance) — Oct 2021

Key Highlights

- Over 2 years of hands-on experience in web and mobile development.
- Strong background in React Native and building cross-platform mobile apps.
- Excellent teamwork, problem-solving, and project management skills from both military and development experience.
